DESCRIPTION

The Carlat Psychiatry Report is an eight-page monthly newsletter that provides clinically relevant, unbiased information on psychiatric practice.

Recent issues have featured a concise review of such topics as: antidepressants, antipsychotics, anxiety treatment, ADHD, psychiatric pharmaceuticals and medications, geriatrics, HIPAA, bipolar disorder, CME programs, genetics, suicide prevention, and more.

Every month, readers enjoy an in-depth interview with an expert in each focus area, clinical wisdom from front-line psychiatrists, and an interesting article about the history of psychiatry.
